Shruti Singhal

QA Engineer | Software Testing

shrutisinghal3003@gmail.com · +91-6350175217 · Jaipur, Rajasthan · linkedin.com/in/shruti-singhal-39b078382

SUMMARY

MCA graduate with hands-on QA internship experience verifying payment processing and merchant management modules against product requirements. Experienced in designing test cases from requirements, executing functional, integration and regression tests, debugging and reproducing defects, and working with developers through issue resolution. Built and deployed a live JavaScript web app, and keen to grow into test automation with a strong eye for user-facing quality.

TECHNICAL SKILLS

- **Verification & Testing:** Test case and test scenario design from requirements, functional, integration and regression testing, retesting, SDLC/STLC
- **Debugging & Analysis:** Defect reproduction and isolation, working with developers on root cause and fixes, analysing test results, defect reporting
- **Tools:** JIRA, Postman, REST APIs, Git, GitHub, VS Code
- **Databases:** MySQL, MongoDB
- **Web & Programming:** JavaScript, HTML, CSS, GraphQL; Apex, SOQL, Lightning Web Components (Salesforce); learning Playwright and Java

WORK EXPERIENCE

Software Development and Testing Intern 01/2026 – Present

PaySecure Technologies Pvt. Ltd. Jaipur, Rajasthan

- Wrote and executed test cases and test scenarios from product requirements for payment processing and merchant management modules, covering dashboard and backend workflows.
- Executed functional, integration and regression tests across payment and transaction workflows, verifying application behaviour against requirements.
- Debugged and reproduced defects, logged them in JIRA with clear steps and evidence, and worked closely with developers through issue resolution and retesting.
- Verified backend behaviour of REST APIs using Postman to validate business logic and confirm fixes.
- Kept test execution and defect status up to date in JIRA across builds, so results stayed traceable as the product changed.

PROJECTS

AniFind – Anime Discovery Web App | JavaScript, HTML, CSS, GraphQL

Live: shrutisinghal2.github.io/anifind · Code: github.com/Shrutisinghal2/anifind

- Built a responsive web app to search and browse anime using the AniList GraphQL API, with trending, seasonal and top-rated lists and pagination.
- Added a multi-select genre filter, a detail view with official where-to-watch links, and a watchlist saved in localStorage.
- Handled API rate limits with automatic retry and designed loading, empty and error states; deployed on GitHub Pages.
- **Salesforce LWC Applications** (BMI Calculator, Alarm Clock, Weather App, Note-Taking App): built with Lightning Web Components, handling user input validation and external API integration.

EDUCATION

Master of Computer Applications (MCA), Banasthali Vidyapith 2024 – 2026

CGPA: 8.0

Bachelor of Computer Applications (BCA), University of Rajasthan, Jaipur 2021 – 2024

Score: 83%

CERTIFICATION

- **Salesforce Certified Platform Developer I**
